Valedictory Address

by Sharon Chong

Honoured guests, ladies and gentlemen, fellow graduates:

It doesn't seem possible that we are grad uates of SCI already. In fact, it seems like only yesterday that we came to this institution as skinny little 'minor niners' trying our best to fit in. As we watched the 'cool' Grade 13's, we wondered if we could ever become like them - so confident, intelligent, athletic, so near perfection! Well, if they could only see us now! It was all so new and different. In grade 9, the school seemed so big; we couldn't find our classes, but by grade 13, we couldn't hide from our classes! Soon enough, though, as the strangeness wore off, we began to enjoy life here; it not only became a place of educa tion, but the center of our social life as well. It was during our stay here that we made some of our lives best friendships, got involved, and began to feel the school spirit.

It was these same people who benefitted the most from school because they were the ones who put something back into it. They made school worthwhile. Thet realized school didn't necessarily mean all work and no play, but was rather a balance between academic studies and social activities. Some seemed to balance their time better than others. However, it is as representative of all the graduates of the 1980 class that I give the valedictory address tonight.

A "valediction" is simply a farewell. It is sad that we have to say goodbye, but also we must remember that a 'commencement' is also a beginning. For many people, tonight is the last time we will see each other. Some people will be going on in education, some have found jobs in the work world, others are getting married, but no matter what we do, or where we go, we will always remember the friendships we made and the memories that go along with them. But, before we say goodbye, we must also thank the people who helped us.

First, on behalf of the students, I would like to thank Mr. McCahill and the staff for all their words of wisdom. How could we forget teachers like Big Bad Farrar and Mr. Robinson whose strict vigil over our attendance kept us in line when we decided to create our own holidays, or Mr. Burrowes for his extracurricular activities on Friday nights, or Mr. Hamilton and his favourite line: "I'll leave you with that" or Mr. Downie and his morn ing broadcasts? And how can we ever forget people like Mr. Scott, Mr. Smith, and Mr. Hall who are more than willing to help us if we need it? We would especially like to thank you for being more than teachers, for being our friends.

Also, our parents deserve many long-overdue thanks. Although there were many times you would have gladly wrung our necks, there were many more times when we needed you and

you were always there. Never doubt our appreciation.

Finally, the last and hardest thing we must do is say thank you and goodbye to our friends and classmates. These friendships are some of the most important things we will take from here. Do you remember in grade 9 thinking how great it was getting out of class for football games at Norm Perry? Watching our Blue Bombers get so close only to go down in defeat? Ufortunately, this became a tradition at SCITS, but we had fun anyway. ber our 'star' halfback and his gang going down to the St. Clair Hotel to "warm up" for the game? Remember George? And don't forget our pep rallies with the mysterious UCLA

"Dullass" cheerleaders! Mr. Burrowes made history as the only cheerleader hairier than our mascot, Billy Bomber. There were so many things to do - drama, athletics, the band, clubs, Miss Gibb's SCITS Revue, and last year under Mr. Scott's quidance, SCITS had a very successful beginning in an intramural program. It was cut short when our teachers decided they needed a nine-week holiday! All these added to the life and character of the school but we must put these behind us now and move on. In a sense, we are all "minor-niners" again, making new friends, meeting new challanges, facing new problems. One lesson we take with us is that we are our own future; we can shape our lives. We only get out of life what we put into it; so, we must strive to be happy and hold on to our dreams.

Thank you.

It is a tradition in this school, that a member of the graduating class pass on to the incoming Grade 9 class a lamp, the symbol of learning. It is my pleasure at this time to continue this tradition and pass this lighted symbol to Jill Thomson.

Senior Grads

KELLY ALLAN

Kelly is a four year honour student here at S.C.I.T.S. Her plans for next year are to attend Fanshawe College to pursue her career in Child Care. Kelly was a member of the Drama Club throughout the last four years.

LUCILLE ARSENAULT

This is Lucille's first year at S.C.I.T.S. She is bilingual, speaking English and French fluently. She has a part-time job at Roma's making prizzas.

Her future plans are to enter some type of social work and she also plans to travel.

CAM BALLANTYNE

Cam hopes someday to leave highschool and go out and make his mark in the world. Presently however, he is satisfied with suing "Nautilus Fitness Club" for what they did to his body. Cam's main interests include keeping his Volvo running and drinking to keep himself running.

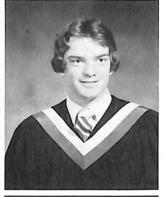

SUE BARNETT

Equipped with exceptional marks and creative style in the world of art, Sue plans on attending U.W.O. in the fall to follow a career in science. Along with a craze for Rock 'N Roll, she will further her study in the male anatomy.

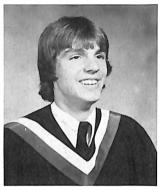

HARVEY BEISHUIZEN

Harvey is often seen pursuing his future ambition as an engineer whether he is building computer-card structures in the gym, or sharpening his pencil in Calculus or Functions. However, after school, he sheds his Dr. Jekyll image when he drives Prail's delivery truck.

RICK BRAYTON

Rick "Runzi" Brayton reminds most of us of "G.I. Joe", especially on dress-up days. He is very aggressive, especially in sports. Rick has played football and has been involved in track and field here at S.C.I.T.S. he plans a military career as a helicopter pilot.

MAUREEN BRENNAN

Maureen began her high school career as a student in Quebec and, therefore, has been with us here at S.C.I.T.S. for only four years. Last year was her first to participate in the activities of the Drama Club as an elf in the club's Christmas production.

SCOTT BONDY

Unfortunately, Scott's unique method of writing exams led to a shortened career in Grade 13 at S.C.I.T.S. Most people didn't think that he would last to October, let alone January! He has visited many colleges and universities and rates them according to their pubs.

MELINDA BURGESS

Melinda is a quiet girl who is hard to get to know. But once you become good friends with her, you discover she is very friendly and loves to have a good time. After completing Grade 13, she plans to study Business in University.

MELISSA BURGESS

Melissa can't seem to decide whether to party or study. If you're around after the bell rings, you'll probably see Melissa running to her class. Melissa's favourite words are "I'm going to drop this."

Melissa plans to study journalism at Western next year.

SUE CADMAN

Sue is one of the best liked people here at S.C.I.T.S. (This is only because she never talks). Sue is famous for maintaining her birth weight and height. She has maintained a high academic standard, while still being a wild partier from the Point.

GINA CAVASOTTO

Although she hasn't been at S.C.I.T.S. for long, Gina has become very well-known. Her facial expressions have a lingering after-effect. She is witty and fun to be with. With her aggressive personality, she should do well at university.

STEVE CLARK

Stephen is an American artist in a Canadian fantasy. He has been very active in the Drama Club at S.C.I.T.S.; he is very into M & Ms and his favourite pastime is eating popcorn at midnight. Steve plans to graduate.

KELLY CLARKE

Kelly has been extremely active throughout her five years at S.C.I.T.S. She has been involved in almost every activity. Some of her interests are Dave Young and being "Mom" to the cheerleaders. Besides being Mr. Scott's favourite student, Kelly has so many meetings to go to she never has time for lunch.

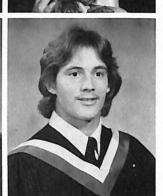

MIKE CLARKSON

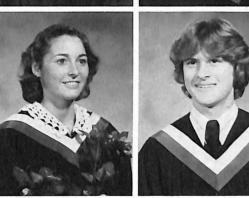

Mike is a notorious member of the Point Edward Crew; he initiated a lot of school spirit by doing cart-wheels at the football games. Mike is very intelligent but prefers menial tasks like filling and emptying wine skins.

KIM CUTBUSH

Kim is a quiet, bubbly girl who loves the latest gossip and a good chuckle. She always said the social part of school life was the best. She proved this by leaving S.C.I.T.S. before the cold winds of December set in. Plans are indefinite but we here wish her the best.

JENNY DEALMEIDA

Jenny is the secret leader of the notorious "Portuguese Connection" at S.C.I.T.S. She is presently using her job as a doughnut server at the International Bakery as her 'front'. She enjoys music and anything that doesn't involve a great deal of energy. She plans a career in secretarial work.

TERRY DOLBEAR

Terry's biggest 'claim to fame" was his little red truck, which was well known to students, teachers and police. Unfortunately, the poor little machine died in the summer of 1980. He replaced it with a Honda Civic, with which he causes equal trouble. His only ambitions to date are to "drink and break the land and water speed records."

JEFF DUCHENE

Jeff is an honours student who excells in maths and sciences even though English and Mr. Arthurs is his favourite subject! He has tried to remain quiet and inconspicuous during his days at S.C.I.T.S. and has succeeded fairly well. Even Mr. McCahill says, "Who is that lad?"

DONNA EARLE

Donna will suffer from a vitamin C deficiency at university because her mother won't be their to peel her oranges. Her own homecooking is bound to be a let down after the "Fog Cutter" lunches she's used to.

Actually, Donna is the math department's pride and joy (little do they know, her mother does her homework).

LINDA O'NEIL

Linda is a very ambitious student, but she still finds time to be actively involved with the intramural program and the social committee.

She will never be in financial troubles with all the prizes and awards (cold cash) she has won! Linda plans to continue her education at Western.

SHERI PHAIR

Sheri is an alert, attractive girl who spent her first four years at SCITS charming teachers and fellow students. This year it was a toss-up between the "Bee Hive" and school and the former won. She left us for an extended Christmas vacation!

WILSON PLAIN

Wilson is an all-around student, in more than one way, taking time out to study the halls at lunch as well as the books. Wilson is a member of the S.C.I.T.S. winning chess team this year, and he participated in the Revue as a writer.

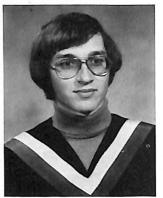

PATTY POSTIL

As a Point Edward resident Patty has pride??? Mr. McCord reports that her height is inversely proportional to the academic and social profile she has achieved at S.C.I. Patty adores popcorn at Steve's and plans to attend Western.

DARLENE ROBERTS

In Darlene's third year of cheerleading she as given the title of co-captain wit the sole responsibility of "Key Keeper". Darlene frequently misses classes because of "illnesses", the worst of these being Jim's Happy Friday but this doesn't harm her schooling much since the majority of her classes are spares.

ALLAN ROWE

Although Al (alias "Wink") Rowe gets straight A's during school, he loathes being referred to as a student. Preferring guitar, he also takes candid pictures for the yearbook. Al plans on taking an engineering course at Waterloo and is a leading member of the Black House.

GARY RUBERRY

Gary Ruberry is the guy in your classes that nobody seems to know about. He is quiet and shy. His life ambition is to obtain total lack of facial expression. Don't let his innocent face fool you. He's not as shy as you think.

MARILYN SHAND

In English you don't need to open a dictionary if Marilyn is around! She also plays the dictionary in Spanish and French. Her favourite expression in Math class is, "I think I finally got it, I think." She enjoyed math so much in fact, she took it twice just for the laughs.

TIM SHANKS

Known for his lewd sense of humour, and as king of the "double-entendre", Tim prefers to be thought of as a victim rather than a student. His favourite hobbies include playing music and trying to "gross out" everyone in sight.

CINDY SHIRRAN

Cindy is an outcast of Park Hill, and we have accepted her here at S.C.I.T.S. She is quiet person partly because she is rarely here. Cindy plans a career in nursing and should do well.

KAREN SMITH

Karen is well-liked by everyone here at S.C.I.T.S. Her giggling has brightened up many dull classes. "Mrs. Harper" spends a lot of her spare time slinging hot dogs at the Mooretown Arena. Karen plans to further her education at college.

JEFF STEWART

Jeff is one of the last members of the Balmoral Club. Believe it or not, he's sober for this picture. His pastimes are playing for the Bees, which explains why they lost, and going to school. Jeff plans to study computer science at university.

CINDY SUTTON

Cindy has been on the volleyball team for five years. She is an active member on the intramural council and participates in most of the events. (She always has a male staff member as her partner, which could explain those high marks!) She plans to go on to further education but where and what is a mystery!

LAURIE VANDERVEER

JOAN WALKER

Besides having participated in many activities at S.C.I.T.S. Joan is involved in teaching swimming and diving classes and is an active member of the Junior Farmers.

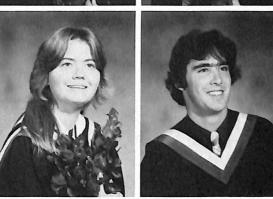

An honour student, she plans to attend Western to pursue a career in Nursing. With her dedication and concern for others, Joan is certain to succeed.

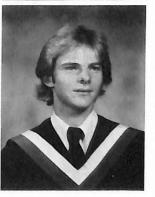

MICHAEL WARD

Mike "Pirelli" Ward is S.C.I.T.S. foremost stunt-driver. His life ambition is total insanity. His favourite activities are water-skiing and eating more than is humanly possible. In future, he plans to be a test-driver for Datsun. Mike is a member of the infamous Black House.

LINDA WARDELL

In Linda's last year, she was president of the GAA. Her outstanding devotion to this club won her this honour. She was a cheerleader for three years, but when she realized that she'd never grow to see over her pom-poms, she gave it up for a career at Sentry.

MARIAN WENSEL

Marian is known for her great German dancing. She likes riding outings and Big Boys. She's sweet and innocent, but aren't all Wensels? It's her last year here and then she plans to go to college for nursing. Epidemics here we come!

SCOTT WELLINGTON

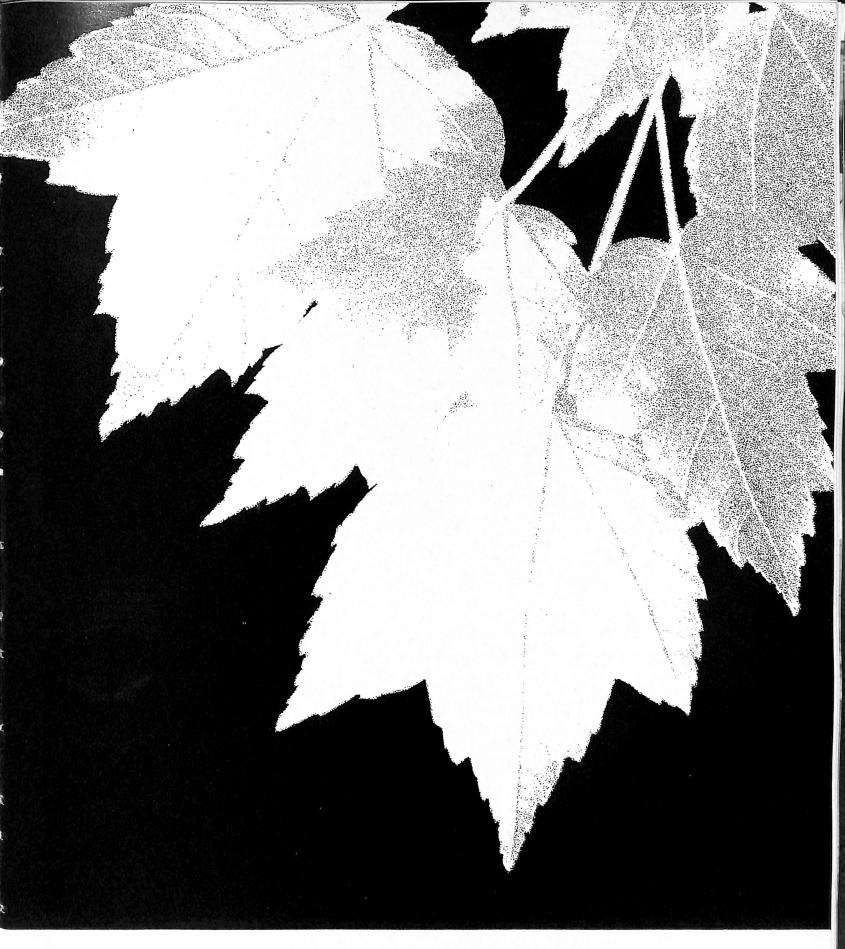

Scott became will known during his five years at S.C.I.T.S. When the "Duke" wasn't in the halls, he could be found in his flashy Firebird in the Brewer's Retail parking lot. He also participated in other sports (besides bending his elbow) such as football, basketball and track.

DAN WHITE

Dan White! One of S.C.I.T.S. quiet, shy and humble students! Ha! Ha! Dan has participated actively in Drama and Track and Field. Many mornings Dan could be found jogging to band rehersal (ten miles). He plans to attend university to achieve his "Doctor of his magesty the Tuba!"
